APRA *online*

Criteria and tools of digital teaching

Study from anywhere, whenever you want

APRA*online* courses are designed to foster independent learning: each student progresses at their own pace, on leading platforms that make access easy for everyone.

1 **Teaching model**

2 **Principles and values**

3 **Criteria and tools**

Independence in study does not mean isolation, but accompanied responsibility.

HOW THE COURSES ARE DESIGNED

Four criteria for independent learning

APRA teachers, with Anáhuac

Each course is conceived and structured by APRA teachers with the support of Anáhuac Online's instructional designers: academic tradition meets innovation.

Clear objectives from the start

The learning objectives of each course are defined in advance, so students know where they are heading.

Readings chosen by the teachers

The teachers personally select the course readings.

Continuous updating

The online format makes it possible to update content and materials continuously.

Each student learns at their own pace, from wherever they want and whenever they want, within a clear structure.

THE TOOLS

What students find

Learning platforms	Courses are available on the best LMS platforms, to make access easy for everyone.
Quality videos	All videos are recorded in a studio and edited by professional graphic designers; the graphics are approved by the teachers.
Continuous formative assessment	Assessments along the way let students understand their own level of learning.
Final test and certificate	Each course ends with an assessment that makes it possible to obtain a certificate of recognition of academic credits.
Masterclasses and webinars	Throughout the year, to meet and listen live to your own teachers.

APRA online

THE STUDENT'S JOURNEY

A course, step by step

1 **UNDERSTAND**
Acquire fundamental concepts, language and references.

2 **DEEPEN**
Enter into the issues through selected sources, texts and materials.

3 **DISCUSS**
Put ideas and questions in conversation with teachers, authors and other students.

4 **APPLY**
Turn what is learned into the ability to analyze, judge and act.

5 **ASSESS**
Recognize progress through activities, feedback and assessments.

WHO SUPPORTS YOU

APRA TEACHERS
They design the course and choose the readings.

ACCOMPANYING TUTORS
They offer guidance and feedback during the journey.

TECHNICAL SERVICE
Supports access to the platforms and materials, replying to students within 24 hours.
